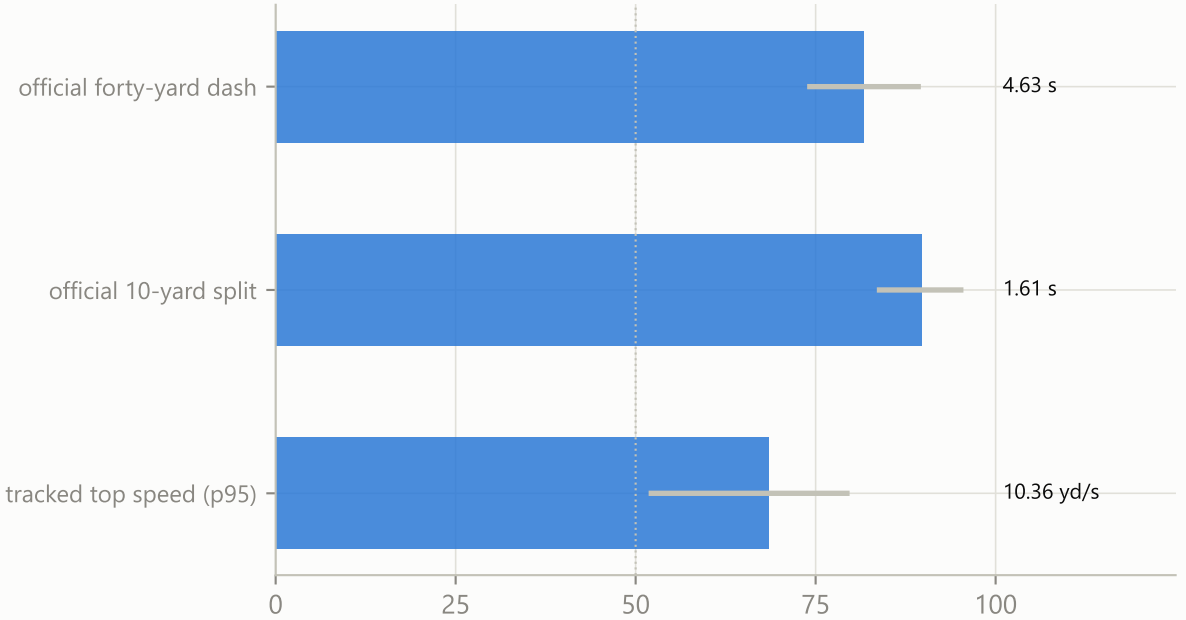
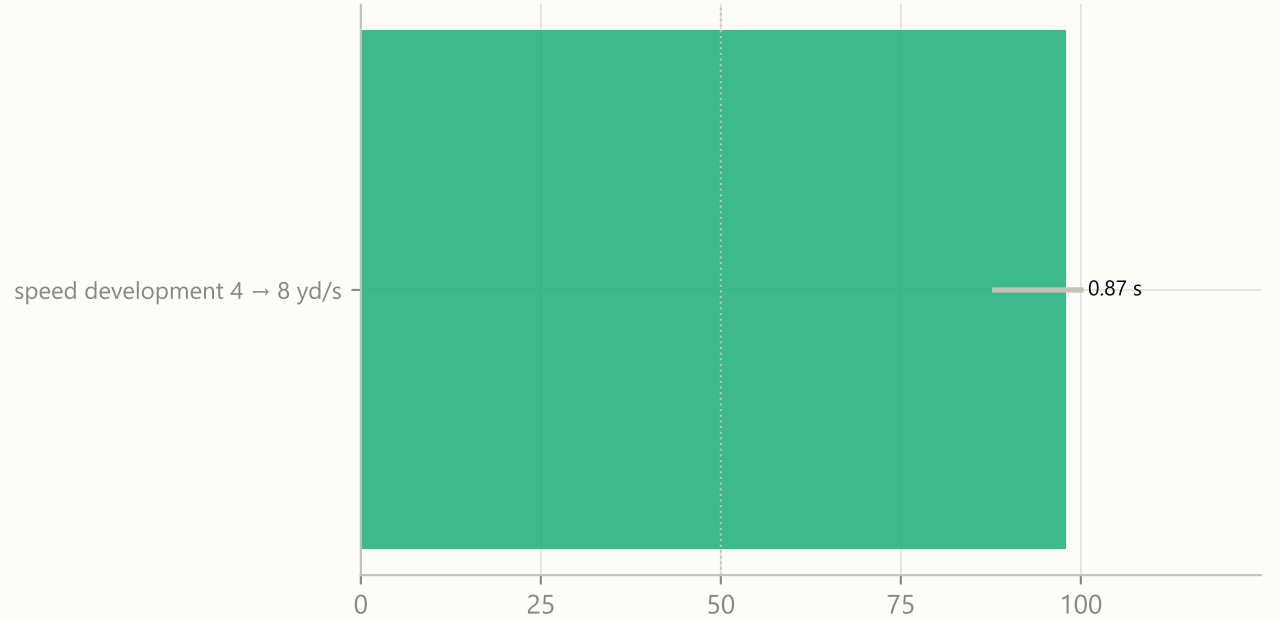
Cedric Johnson · DL · draft 2024

A · Speed capacity — position percentile with 95 % interval



B · Speed development — position percentile with 95 % interval



C · Movement fingerprint (similarity only)

nearest athletes of the position in the TCN-B representation:

1. Tyler Baron
2. Trajan Jeffcoat
3. David Walker

repeat-attempt self-recognition: 0.96 (1 = his repeat is closer than everybody; 0.5 = not recognisable)

D · Evidence confidence: high

reasons: none recorded
reference: 93 athletes of the position

Football-outcome evidence: no added value established
no registered Combine tracking model improved held-out prediction of the approved football outcome beyond official testing. The scorecard stays descriptive.

A descriptive pre-draft profile. No overall score: no section has an established NFL predictive value, so the sections are never combined. A missing measurement is shown as not observed, never imputed. Faded bar = experimental (reliability below the 'available' line).
