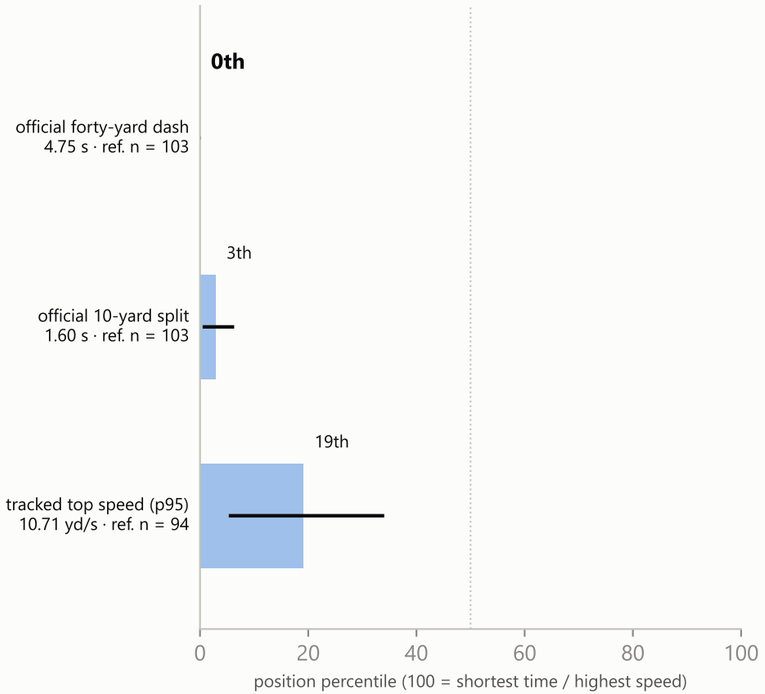
Trey Dean

DB · Combine 2023 · PRE-DRAFT ATHLETIC FINGERPRINT

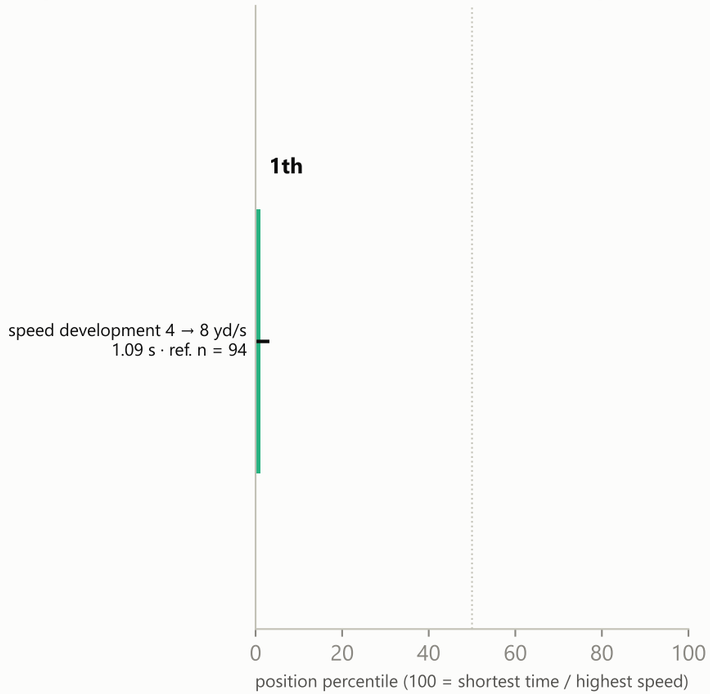
Forty 4.75 s · 10-yard 1.60 s · 200 lb · 74.1 in

EVIDENCE: HIGH

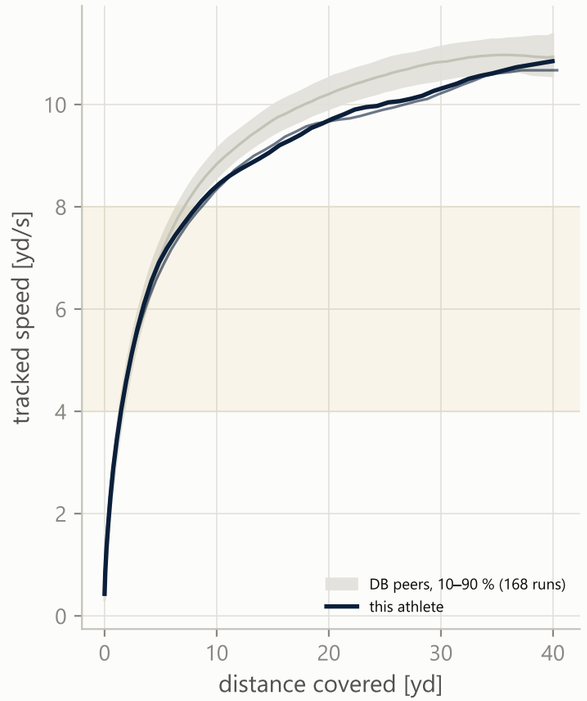
A · SPEED CAPACITY (headline: official forty; components are not averaged in)



B · SPEED DEVELOPMENT (4 → 8 yd/s)



Recorded speed against distance (gold band: 4–8 yd/s)



C · MOVEMENT FINGERPRINT (similarity, not a rating)

Moves most like (DB): Rashad Torrence · James Williams · Kalen King · Isaiah Johnson · Jaylen Key
Among athletes with near-identical official times: Rashad Torrence
Repeat stability: his second run is closer than 95 % of position peers
Training-seed stability of his neighbours: 1.00 overlap (untrained encoder: 0.00)
Learned representation: its coordinates have no physical name. Distance from other athletes is not a quality.

D · EVIDENCE CONFIDENCE (about the recording)

Tracked attempts: 2 · usable signal on 2 · speed development on 2
Starts in motion: no (max first-frame speed 0.7 yd/s)
Sensor residual (max): 0.011 yd · position reference: 104 athletes
Why this tier: every rule of the high tier is met

HOW TO READ THIS CARD

Percentiles compare the athlete with Combine athletes of his position; bars carry 95 % intervals (measurement error and reference sampling).
A missing or unsupported measurement shows no number. There is no overall score.
NFL status: DESCRIPTIVE ONLY — not validated as a predictor of NFL movement or performance (Milestone 06: no incremental gain over official Combine testing was established).
